Company Information:

Unionlux lighting CO. Limited specializes in the design, development and production of LED lighting for vehicles.

With an experienced technical, management and business personnel team, our company has always focused on research, development and innovation in order to further achieve our goal of gaining customer satisfaction.

Founded in 2006, our factory is special for HID xenon products at the beginning. In 2010, the LED car light department was established, includes production of LED Headlight, fog light, off road light, [LED light bar](#), light turning, brake light, LED marking, etc.

In 2011, the head office for international sales in Guangzhou was established and a broad

cooperation with qualified factories set up according to the needs of customers. Our products included [offroad light bar](#) sold roughly to America, Europe, Australia, East Asia, the Middle East, South Africa, etc.

Unionlux follows the principle of "quality first, customer first" We will continuously strive to improve our service and deliver great performance products and competitive prices. Sincerely expecting to create glorious future in the lighting area of the car with you. International professional LED car lights supplier Unionlux is waiting for cooperation with you.
